

# SWIFT

# 360°

## Features

- 360° rotating hand chain wheel enables full-circle operation from any angle
- Fitted with high-grade G80 alloy steel load chain for reliable heavy-duty lifting
- Manganese steel anti-falling hook and thickened shell enhance load security and durability
- Integrated locking plate and hand zipper strip ensure better load control and safe handling
- CE certified, ensuring safe and high-quality operation
- Designed as per IS 3832 design standards for reliable performance

## Advantages

- Omnidirectional operation allows use in confined workspaces
- G80 chain ensures long-lasting performance in high-load industrial environments
- Impact-resistant shell protects the internal mechanism from rough handling
- Low effort to lift rated load (as low as 120N) supports smoother manual operation

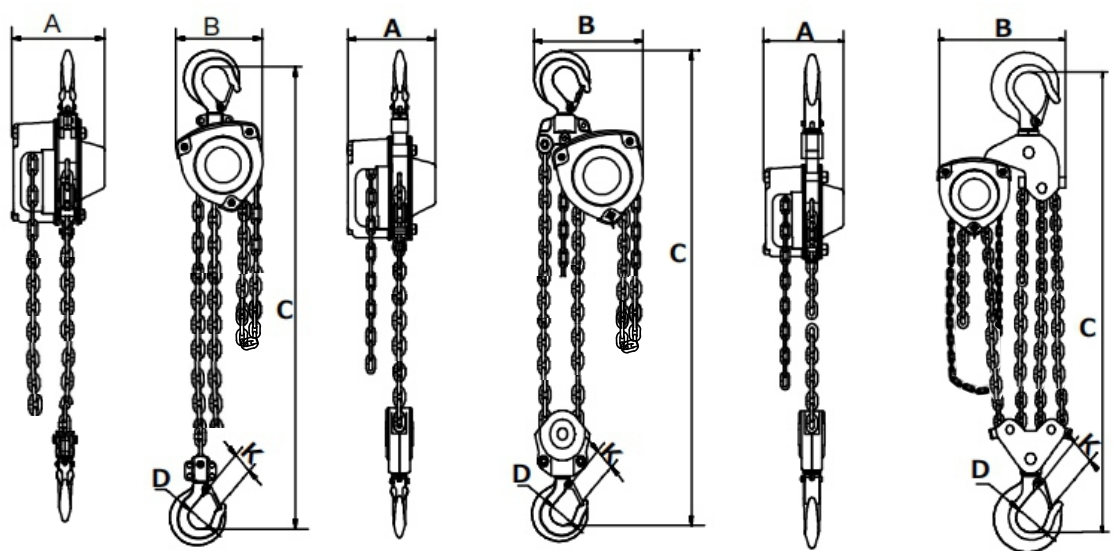

## Benefits

- Greater positioning flexibility boosts efficiency in fabrication, assembly, and repairs
- Reduced maintenance needs and wear increase uptime and lower service costs
- Enhanced safety features minimize the risk of load drop or user injury
- One compact unit handles multiple capacities- 0.5 T to 10T reducing equipment redundancy
